

Quest Solution Integrates AI-Based Vehicle Recognition System with Law Enforcement Department Database for Community Safety and Crime Prevention

SALT LAKE CITY, April 22, 2019 (GLOBE NEWSWIRE) — Quest Solution, Inc. (QUES) (“Quest” or “the Company”), a provider of Supply Chain and Artificial Intelligence (AI)-based solutions, announced today that it has integrated its Vehicle Recognition (VR) solution with the database of a municipal law enforcement department in a major U.S. state. The integration allows Quest to detect and provide real-time alerts to the state law enforcement department regarding license plate numbers (LPNs) that are considered to be suspicious. The solution, which supports police in reducing crime and also increases protection of schools and other soft targets, provides local law enforcement with immediate alerts of tagged license plates once detected by one of Quest’s AI-based cameras.

Shai Lustgarten, President and CEO at Quest, commented, “We are pleased to fully integrate our vehicle recognition system with law enforcement authorities and further support our partners in combatting crime and improving safety. We pride ourselves on providing critical real-time alerts to our customers, and as we optimize our applications with advanced vehicle identification features including License Plate, Color and Maker, we are focused on building strong relationships with law enforcement authorities and community leaders in order to keep their communities safe.”

About Quest Solution, Inc.

Quest Solution is a Specialty Systems Integrator focused on Field and Supply Chain Mobility as well as a provider of Artificial Intelligence (AI) monitoring and surveillance solutions. Additionally the Company is a manufacturer and distributor of consumables (labels, tags, and ribbons), RFID solutions, and barcoding printers. Founded in 1994, Quest is headquartered in Eugene, Oregon, with offices in the United States.

Our customers are leading Fortune 500 companies from several sectors including manufacturing, retail, distribution, food / beverage, transportation and logistics, health care and chemicals / gas / oil.

The Company's HTS Image Processing subsidiary is a leader in computer vision image processing-based solutions using patented and proprietary AI technology to provide real-time surveillance and monitoring for homeland security, traffic & parking management, law enforcement and access control applications.

"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995. Statements in this press release relating to plans, strategies, economic performance and trends, projections of results of specific activities or investments, and other statements that are not descriptions of historical facts may be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. This release contains "forward-looking statements" that include information relating to future events and future financial and operating performance. The words "may," "would," "will," "expect," "estimate," "can," "believe," "potential" and similar expressions and variations thereof are intended to identify forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which that performance or those results will be achieved. Forward-looking statements are based on information available at the time they are made and/or management's good faith belief as of that time with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause these differences include, but are not limited to: fluctuations in demand for Quest Solution, Inc.'s products, the introduction of new products, the Company's ability to maintain customer and strategic business relationships, the impact of competitive products and pricing, growth in targeted markets, the adequacy of the Company's liquidity and financial strength to support its growth, the Company's ability to manage credit and debt structures from vendors, debt holders and secured lenders, the Company's ability to successfully integrate its acquisitions, risks related to the sale of Quest Solution Canada Inc. to Viascan Group Inc. and other information that may be detailed from time-to-time in Quest Solution Inc.'s filings with the United States Securities and Exchange Commission. Examples of such forward looking statements in this release include, among others, statements regarding revenue growth, driving sales, operational and financial initiatives, cost reduction and profitability, and simplification of operations. For a more detailed description of the risk factors and uncertainties affecting Quest Solution, Inc. please refer to the Company's recent Securities and Exchange Commission filings, which are available at <http://www.sec.gov>. Quest Solution, Inc. undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless otherwise required by law.
